

# Experienced Embryologist

## **Our Hospital**

The AZ Jan Palfijn Gent is a general public hospital with 526 recognized beds. We are a strong regional player and employ more than 1,000 employees and 135 doctors. In addition to its fixed care offering, the hospital invests in specific specialties and disciplines. Over the past three years, the hospital has been completely renovated. Our nursing departments, operating theatres, consultations and critical services, among others, have been given a new look. In the renovated hospital, we surround our patients with the best quality care.
