ONCOFERTILITY CONGRESS

Freezing Ovarian Tissue and Oocytes (FOTO) Consortium Brussels

FRIDAY
24
SEPTEMBER
2021

Fertility preservation is a research and clinical priority to improve the long-term quality of life of cancer patients. Three pioneering centres in fertility preservation within the Brussels Capital Region (ULB, UCL and VUB) have joined efforts to establish an oncofertility research consortium, funded by an Excellence of Science (EOS) grant by FWO-FNRS.

We are proud to announce that four years of EOS research have culminated in a scientific Oncofertility Conference featuring the latest developments and advances in this intriguing field.

Program available soon!
